Claude Bernard University Lyon 1

Health Sciences – Sciences – Technology
Presentation

The law of 10 July 1896 created a single university from the formerly independent faculties of Science and Medicine of which the oldest, the Faculty of Science, dates from 1808. Created by decree at the end of December 1970, Lyon 1 elected its first president in 1971. Over time, the Claude Bernard University Lyon 1 established sites in many geographical locations and developed research laboratories and saw its student population grow.

- Cédric Villani
- François Fillon 2010

DYNAMIC STUDENT LIFE

Cultural activities, sports and physical activities, involvement of students in university life - Lyon 1 university offers an active and rewarding life student experience.

The quality of life for students at the Claude Bernard University Lyon 1 is also closely linked to the activities of more than fifty clubs spread over the different campuses.
An Exceptional Quality of Life

With internationally renowned schools relying on strong competitiveness hubs (areas: health, chemistry and environment, urban transport systems, digital entertainment and technical textiles), Lyon has some first class assets to offer.

The attractiveness of the city is further enhanced by its widely recognized high quality of life.

- Listed a World Heritage Site by UNESCO in 1998
- Rich historical heritage: 2,000 years of history
- Dynamic culture and arts scene: Museums, Theatre, Opera, Festival of Lights
- Dance Biennial, Biennale of Contemporary Art, etc.
- Paris is 2 hours away, the Mediterranean just an hour and half
- Within easy reach of a wide variety of areas of outstanding beauty: mountains (Mont Blanc), vineyards, gentle valleys, the largest lakes in France (Lake Geneva, Lake Bourget and Lake Annecy).

Lyon 1 Tomorrow

Ongoing development of major modernization projects, with the foundations laid and the launch of specific work; improved services for staff and students ... Lyon 1 will be present at all the key events to maintain its attractiveness.

The Claude Bernard University Lyon 1 is committed to sustainable development. First, the institution maintains an inventory of the environmental, social and economic performance of its campus. Secondly, it has long-term commitments to a range of approaches that will ensure the sustainable development of the university.

The University has signed up to an ambitious policy for improving its teaching and education innovation using the tools of tomorrow. The use of 3D is an asset in the learning process because it provides animated representations of events and processes.
